CAREER OBJECTIVE

Detail-oriented Computer Science engineering student specializing in **Artificial Intelligence/Machine Learning and Data Analytics**, with hands-on experience in **Python, Scikit-learn, Pandas, NumPy, SQL, and Machine Learning**. Seeking an **AI/ML Intern** role to develop and evaluate ML models, preprocess and analyze data, and contribute to real-world AI-powered solutions.

EDUCATION

B.Tech in Computer Science Engineering , The NorthCap University, Gurugram	CGPA: 8.09/10 [2 nd year]	2024 – 2028
Senior Secondary (Class XII) – Science (PCM), CBSE Board	79.2%	2022 – 2023
Class X, CBSE Board	86.6%	2020 – 2021

SKILLS

Languages: Python, Java, SQL

AI/ML: Machine Learning, Scikit-learn, Computer Vision

Data & Analytics: Pandas, NumPy, Power BI, Excel

Tools & Databases: Jupyter Notebook, Git, GitHub, MySQL, DBMS

Soft Skills: Analytical Thinking, Problem-Solving, Teamwork, Time Management

INTERNSHIP / INDUSTRIAL TRAINING

Data Analytics Intern — 3Skill

Jun 2026 – Aug 2026

Remote

- Completed a structured **2-month** program covering Python, Excel, Power BI, and Tableau.
- Cleaned, transformed, and analyzed **30K+ business transactions**, performing **EDA, missing-value handling, and outlier detection**.
- Built interactive **Power BI dashboards and KPI reports**, delivering stakeholder-ready insights and achieving **15% MAPE in sales-forecast backtesting**.
- Analyzed **\$7.9M in sales**, identifying Furniture as a loss-making category with a **-1.78% profit margin**.
- Tools/Languages used:** Python, Excel, Power BI, Tableau.

Machine Learning Intern — Prodigy InfoTech

Jul 2026 – Jul 2026

Remote

https://github.com/NiteshSingh3228/PRODIGY_ML_01 || https://github.com/NiteshSingh3228/PRODIGY_ML_02

- Developed and evaluated ML models** on real-world datasets through applied, project-based delivery.
- Built a house price prediction model using ensemble learning, achieving **$R^2 = 0.6535$** .
- Developed **K-Means customer segmentation**, identifying **5 customer segments with a 0.555 silhouette score**.
- Tools/Languages used:** Python, Scikit-learn.

PROJECTS

Seismic Guard V1 — Earthquake Damage Predictor

Mar 2026 – May 2026

Python, Scikit-learn, Next.js, React, TypeScript, Tkinter

Project link: <https://earthquake-damage-prediction-system.vercel.app/>

- Engineered an ML damage-prediction system trained on **260k+ Nepal earthquake records across 38 engineered features**.
- Achieved an **83.4% F1 score** using a **Random Forest** ensemble with rigorous feature engineering and tuning.
- Shipped a full-stack web app (**Next.js, React, TypeScript**) delivering real-time predictions for non-technical users.
- Built an offline Tkinter application (**81.1% F1-Macro**) enabling field engineers to **assess damage in low-connectivity** settings.

Pothole Detection System — AI-Based Road Defect Detector

2026

Python, Computer Vision, GeoCLIP

Project link: <https://calroad-iq-wavrbgrcrumegmhy7ziyg.streamlit.app>

- Built a computer-vision road-defect detector classifying **potholes, cracks, and waterlogging across 3 severity levels**.
- Designed a Road Quality Index (RQI) algorithm modeling **~24% traffic speed reduction** for infrastructure planning.
- Integrated EXIF metadata and GeoCLIP** for geolocation-based defect classification, plus an **RQI/traffic-impact analytics dashboard**.

ACHIEVEMENTS & CERTIFICATIONS

- NPTEL – Conservation Economics, IIT Kanpur (2026): **Elite certification with 82%** in a 12-week course.

EXTRA-CURRICULAR ACTIVITIES

- Campus Ambassador, E-Cell IIT Bombay** (Jul 2026 – Present): selected to promote entrepreneurship and innovation on campus, supporting E-Cell initiatives and startup ecosystem outreach.
- HackerRank Orchestrate 2026 — Ranked #822/1,983**: built and deployed an AI-powered WhatsApp notification router using LLM-based routing, OCR, and voice transcription (12,885+ participants, 50 countries).
- Participant, India Run Hackathon 2026 (H2S): built HireMind AI and a full-stack Health Screening Assistant under time pressure.
